

STRATEGY BUILT FOR A PURPOSE

INTERN / ANALYST (m/f/d) in Life Science Strategy Consulting

stradoo® is a **globally acting strategy consulting and advisory firm** focusing exclusively on the **Life Science industry**; i.e. Pharmaceuticals and Medical Devices, Biotechnology and Healthcare companies. Several years ago, we set out to create innovative management tools that would transform the way organizations define and execute their strategies. Today, our tools are deployed in most top healthcare companies and institutions in the world to solve problems.

As an **Intern / Analyst**, you support our Partners and Consultants on strategy projects providing advice to our clients in areas such as **Corporate Strategy, R&D Strategy, Marketing & Sales Strategy, Turn-around, Organization** and during **Mergers and Acquisitions**. You will become an integral member of our project teams from day one. As we operate as small consultant teams, you will be immediately exposed to senior colleagues and Partners at **stradoo®**. This exposure will facilitate a steep learning curve on your end and provide you with the opportunity to get to know strategy consulting first hand.

Your tasks

- **Take over responsibility** for defined work packages within our client consulting projects
- **Conduct analytics** and support development of financial and market models
- **Conduct own research** on market, customers, portfolio and competitor strategies
- **Prepare, support and conduct** client meetings
- **Support partners in developing** high rank publications and lectures on leading edge topics

Your background

- At least second year within your studies in economics, business administration, or natural sciences or an above average bachelors degree in these areas
- Preferably prior exposure to healthcare and/or consulting as part of internships
- Interest and affinity to analytical approach
- Excellent skills in English and preferably another foreign language

If you are interested and looking for a challenge in Top Management Consulting at **stradoo®**, please apply by email and send us your application, curriculum vitae and relevant certificates.
